Monty's Reptiles Education and Adoption

A not for profit organization that is based in Terre Haute IN, dedicated to educating the public about local and exotic reptiles. We also take in unwanted reptiles, and find new appropriate homes for them.

Education

Our program is designed to be as flexible as possible. Time can range from 45 minutes to 3 hours. The varied time also determines the number of animals. The bare minimum show allows us to bring three animals a turtle, lizard, and a snake. We focus on bringing our program into the schools and classrooms doing hands-on educational programs.

The subjects we cover consists of: compare and contrast of reptiles, description of the animals, conservation efforts, the roles these animals play in the wild, regulations concerning keeping certain reptiles,

and the responsibility that goes along with keeping different types of reptiles.

We also can do programs for other groups such as: scouts, church groups, day camps, and any other group (children and/or adults) that would like to have a hands-on experience with some amazing reptiles. We only ask that groups are kept to no more than 30 children + spectators.

The educational program is free; however a donation is always greatly appreciated. Please call or email to set up a program time.

Adoption

The adoption aspect of Monty's Reptiles is the most active portion of the organization. Unwanted pet reptiles are often surrendered into our care for multiple reasons: whether it is financial reasons or the animal has outgrown its owner. We accept the care and responsibility of finding it a new caring home.
